SERVICES

Civil, Bulk and Detailed Excavation

Colombian's Machine offers bulk excavation for quarries, road work, and commercial site preparation.

Our truck and dog is capable of carrying 30 tonnes per load, which allows for quick and cheap removal of waste material. With the use of the Diamond Saw attachment, rock hammers and bucket, we can provide levelling, final trimming and detailed excavations for trenches, peers, beams, and footings. Bulk and Detailed excavations can be quoted as per cubic metre (p/m³), per tonne (p/tonne), or as a fixed price rate.

Pool Excavation

Colombian's Machine offers excavations for driveways, tennis courts, dressage arenas and a range of other applications, however, our specialty is excavating sites for the installation of swimming pools.

Our services extend to concrete and fiberglass pools, ranging in size from water features and ponds, to splash pools and lap pools. We are able to tailor our equipment to your individual needs by up-scaling or downsizing our equipment according to the space available. For limited space and tighter access we have mini-excavators, wheelbarrows and conveyers to remove material from the site, leaving minimal impact on the property.

Demolition

Colombian's Machine offers all aspects of demolition contracting from small residential houses to larger commercial buildings and sites. Our equipment includes; excavators, trucks, demolition claws, hammers, rock saws, and strong labourers. Our team is fully licensed with approved work cover insurances, and aims to work in unison with clients, neighbours and the local council to minimize dust, noise, traffic disruptions, and environmental impacts. All brick and concrete is recycled for road base, good quality timber is typically sold to timber merchants, and non-saleable timber and green waste is reused for mulching.

Rock Sawing and Grinding

Using the Diamond Tipped Rock-Saw attachment we are able to cut into sandstone, granite, reinforced concrete, and asphalt so that we can excavate pools, trenches, retaining walls, footings and foundations, road works and demolitions.

The Diamond tipped blade cuts with minimal vibration, which allows our work to be completed quickly and accurately around the home and work site.

Colombian's Machine also offers rotary rock grinders to excavate narrow trenches and small footprints in solid rock, working in tight spaces and around buried utilities.

The rock grinder can provide a weather natural appearance to freshly excavated rock.

Skill Development

We recognise that employees who are given effective training opportunities are more satisfied with their jobs. Our workforce is trained to the highest standards and we continue to invest to further develop our employees' capabilities. This includes Work Health and Safety (WHS), environmental awareness, and specific tuition to increase specific skill sets.

Colombian's Machine ensures that all personnel have the necessary qualifications to comply with WorkCover regulations governing specialised activities such as working in confined spaces and plant operation.

Quality

All employees of Colombian's Machine will conduct their work in a professional and efficient manner so that our clients receive the best of services and value for money. We have earned our reputation in the highly competitive construction and demolition industry by delivering first class projects.

Occupational Health and Safety

Colombian's Machine will ensure that our services are provided in a safe manner by suitably trained personnel. To continually improve our safety procedures, policies and processes, Colombian's Machine provides training and induction to all of our employees as well as regular internal reviews.

Further, Colombian's Machine only provides plant and equipment that is safe and properly maintained. Upon request we can provide all Work Cover Licences which are all part of our OHS System that ensures all requirements of the OHS Regulation 2001 are applied.

Providing a safe and healthy work environment for all employees and sub-contractors is one of our primary goals.
